St Alphonsus Liguori

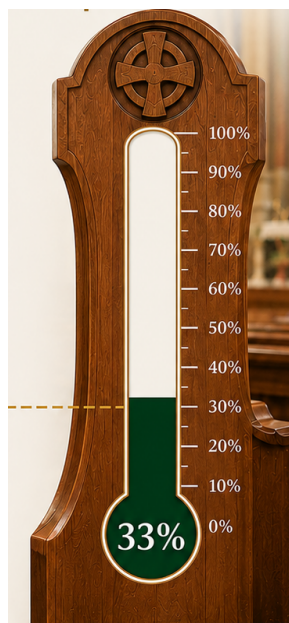

Saturday, 1st of August we will celebrate the Feast of St. Alphonsus Liguori, founder of the Redemptorists.

He was born near Naples, Italy in 1696. Alphonsus was a child - prodigy; he was extremely well-educated and received his doctorate in law from the University of Naples at age 16. As he matured and learned more and more of the world, he liked it less and less and finally felt a call to religious life. He studied theology, and was ordained at age 29. Later founded the missionary Congregation of the Most Holy Redeemer, for the evangelization of the poor.

He made a vow never to waste a moment of time, and, though his life was spent in prayer and work, he also composed a vast number of books. These volumes were filled with such great science, unction, and wisdom that in 1871 he was declared by Pius IX a Doctor of the Church.

He died in 1787, in his ninety-first year.

St. Alphonsus was known above all as a practical man who dealt in the concrete rather than the abstract. His life is indeed a "practical" model for the everyday Christian who has difficulty recognizing the dignity of Christian life amid the swirl of problems, pain, misunderstanding and failure. Alphonsus suffered all these things. He is a saint because he was able to maintain an intimate sense of the presence of the suffering Christ through it all.
